| <b>Generator Functions ~~~~~</b>                              | <b>185</b> |
| Advantages of Generator Functions .....                       | 188        |
| Generators vs Normal Collections wrt Performance .....        | 188        |
| Generators vs Normal Collections wrt Memory Utilization ..... | 189        |
| <b>Assertions ~~~~~</b>                                       | <b>190</b> |
| Debugging Python Program by using assert Keyword .....        | 191        |
| Types of assert Statements .....                              | 191        |
| Simple Version  |            |
| Augmented Version   |            |
| Exception Handling vs Assertions .....                        | 192        |

## 🌀 Python Logging ~~~~~ 193

|  |     |
|--|-----|
| 🌀 Logging Levels .....   | 194 |
| 🌀 How to implement Logging .....                               | 194 |
| 🌀 How to configure Log File in over writing Mode .....         | 196 |
| 🌀 How to Format Log Messages .....                             | 196 |
| 🌀 How to add Timestamp in the Log Messages .....               | 197 |
| 🌀 How to Change Date and Time Format .....                     | 197 |
| 🌀 How to write Python Program Exceptions to the Log File ..... | 198 |
| 🌀 Problems with Root Logger .....                              | 199 |
| 🌀 Need of Our Own Customized Logger .....                      | 200 |
| 🌀 Advanced logging Module Features: Logger .....               | 200 |
| 🌀 Logger with Configuration File .....                         | 203 |
| 🌀 Creation of Custom Logger .....                              | 205 |
| 🌀 How to Create seperate Log File based on Caller .....        | 206 |
| 🌀 Advantages of Customized Logger .....                        | 208 |
